

NEW COUNCIL

To Deal with Questions of Sewers and Improvements

Election Inspectors to be Appointed Friday Night—Other Important Matters.

The city council held an important meeting last (Tuesday) night, all members being present.

The minutes of last meeting and of a special meeting were read and approved.

A petition by Lot Berkeley, assistant engineer for an eight hour day at the same pay as he now receives was referred to the committee on water and light.

J. W. Morton petitioned the council to be allowed to build his own sidewalk, which was granted. Mr. Morton also complained of some hog pens near him.

A petition by John P. Frazee to extend water mains east from Main street to where he is building some new houses was referred to the committee on water and light.

The reports of marshal, treasurer and superintendent of water and light plant for March were received and referred to committee on finances.

Civil Engineer Stewart presented plans and estimates for bridge across the race at the foot of Main street, and for concrete arch across Hodge's branch at Ninth and Sexton streets, but the Council took no action on either, not being certain whether the entire cost of the race bridge should be paid by the city or partly by the county, and some of the members thought a concrete arch of the proposed size would not carry all the water off so that these matters were postponed until Friday night when they were to be informed about who had to pay the cost of the race bridge, and Engineer Stewart will submit the price and plans of a bridge with abutments at Ninth and Sexton streets.

The cistern tops were reported to be in bad condition in some places, the rims being broken off and the superintendent of water and light was ordered to ascertain how many need new tops.

A petition for a franchise over certain streets in Rushville, particularly Perkins street was signed by Ellis Holland, probably representing the line from Greenfield to New Salem which is being projected, but as there was no one present to explain or present the petition, it was simply placed on file.

The matter of securing places for voting precincts and inspectors came up, and was carried over until the special meeting Friday evening.

Mrs. Guffin was granted permission to use half of the street, on Morgan street, while erecting some buildings.

The street commissioner was ordered to notify parties on Seventh street, where a private ditch stopped, that the same would have to be continued by them to some outlet.

The Marshal was ordered to notify parties all over the city to clean up alleys and streets.

The alley between Eighth and Ninth streets was reported as overflowing at every rain, and the matter was referred to the street committee with power to act.

Several proposed railroad and inter-urban bridges were said to be contemplated that would narrow the river channel and cause a flooding of the city by backwater and the city attorney was ordered to look up the law with reference to the same.

The specifications of walk, curb and gutter improvements now pending were presented by the city engineer.

The city attorney reported that the case of Mrs. Alexander vs. the Lake Erie & Western and the city of Rushville had been transferred to Hancock county, and ought to be looked after, and the matter was carried over until Friday night.

A resolution was introduced here for the construction of the Perkins street sewer, and was lost by a vote of 4 to 2, the members voting against it saying they did not want to tie up the new council, except Wilson who said he was not in favor of the proposition.

After the allowance of a large num-

ber of bills, among which was one of Watt Bartlett for 25c for hauling a drunken man to jail on a dray, the council adjourned until next Friday night.

Beveridge for Chairman

The desire of the President to have Senator Beveridge chosen by the national Republican committee as temporary chairman of the national Republican convention is a graceful tribute to the junior Senator from Indiana.

It insures for the party a keynote speech not only of fervid eloquence, but full of reflective thought. It insures for the President the services of a loyal friend and enthusiastic supporter, one capable as a presiding officer and matchless as an orator.

The honor is a rare badge of distinction, but is the more so in this case because the leader of the party has asked for it unsought by its probable distinguishd recipient.—Cincinnati Enquirer.

BONNER DEAD

Able and Well Known Decatur County Jurist Dead

Was Judge of this Court Many Years and is Well Known in This City.

Judge Samuel A. Bonner is dead at his home at Greensburg, at the age of seventy-seven years.

He settled in Decatur county in 1836 with his parents, coming from Wilcox county, Alabama, his father being opposed to slavery, and desiring to educate his children away from its influences. Judge Bonner was educated in the old Richland Academy, in this county, Miami University at Oxford, O., and Center College, Danville, Ky., graduating from the last named institution in 1849. He began his law studies the same year with Judge Andrew Davison, later attending Bloomington, Ind., Law School, graduating in 1852. He began practice soon after in Greensburg with Barton N. Wilson. He was elected to the Legislature in 1854 and in 1856 was chosen common pleas judge of Rush and Decatur counties, serving one term of four years. In 1860, he formed a partnership with Will Cumback, which continued until the latter retired. In 1877, Judge Bonner was elected to the bench of the Circuit court, where he presided for twelve years. He has been an elder of the Presbyterian church in Greensburg for more than forty years. He was vice-president of the Third National bank of that city, and was also a member of the trustees of the State Institute for the Deaf and Dumb.

He left a widow and two daughters—Mrs. Minnie Dechant, of Middletown, O., and Mrs. Lizzie Wampler, of Richmond, Ind.

He was well known here having presided in our courts for a number of years. Funeral services will be held Thursday afternoon at 2 o'clock, at the Presbyterian church in that city.

No Land So Free as Ours, No Time So Good as the Present

By United States Senator CHAUNCEY M. DEPEW

HAVE only contempt for WATERY patriotism. I know men who invest abroad because they see the shadow of an anarchy and communism which is to touch their possessions. I know men who live abroad to get out from under the American avalanche. I HOPE THEY WILL NEVER RETURN. We neither want them nor do we want the offspring of such stock.

What are our perils? In comparison with what we have gone through and overcome they are nothing. Our dyspeptic friends talk about the glory of the old time and how we have fallen away in manners and in morals. Early records speak of the exceeding drunkenness among the clergy of Virginia, but no such record attaches to any church in any denomination in any state, in any township, of the United States today.

The eighteenth century had for its inventions by Americans two things, the lightning rod and shingle nails, but the nineteenth century contributed more to the happiness of man and the glory of God than ALL THE CENTURIES which preceded it.

General Washington's administration and his republic were rocked to the center by a whisky rebellion in a county of Pennsylvania, but in our time thirteen states and a million of men, AMERICANS AT THAT, in arms against the republic for its overflow only placed it on firmer foundations with purer liberty.

AUTOMOBILES

This City Has It's Share as Well as Others.

Local Enthusiasts Preparing for Enjoyable Season—Several Trips are Planned.

The season for automobiling is almost at hand. The local enthusiasts are already beginning to get their machines in condition for the season and some have been out on the streets with their machines for the past two weeks. Owing to the recent rains and high waters the roads are not yet in a condition to permit trips into the country and the scenery has not taken on its spring beauty, so that a trip into the rural districts cannot yet be really enjoyed.

The prospects for an enjoyable automobile season for Rushville folks was never better than it is this year. Several of our citizens are thinking about purchasing machines, and if these do purchase, then Rushville will not be behind in its number of "horseless carriages."

The roads throughout the county will be in splendid condition throughout the summer, as the weather man says that we can expect ideal weather.

Several long trips will be made by the owners of automobiles in this city, to neighboring cities and town and enthusiasts from other cities will come to this city occasionally and will be entertained by the people here.

At present in this city there are eleven automobiles of various types and makes the finest in all probability is owned by J. D. Case. It is an Elmore touring car, and is said to be of about twenty-horse power.

Fred Cook also has an Elmore touring car, but it is somewhat of a smaller type than Mr. Case's. It is a new machine and has only been here about two weeks.

Dr. Dean has an Elmore machine, but it is of another type altogether. The machine is something on the order of a run-about, but slightly heavier. The automobile can be made to carry four persons by the addition of a tonneau. Dr. Dean, we understand, also has an Oldsmobile run-about which he uses in practice.

Among the doctors, Dr. Smith has a gasoline machine, which he uses in making his calls, and Drs. Frank and Lot Green have a nine horse power Cadillac, which they also use on their trips to and from patients.

A. B. Irvin has an Oldsmobile run-about which he uses almost entirely for pleasure. Mr. Irvin is quite an enthusiast and has made several long trips in his machine which he has had for some time.

Manley Pearce and R. W. Innis have two electric machines exactly alike

which they use on their trips to and from the factory and for pleasure. Jacob Feudner also has an electric machine, which he uses almost entirely for pleasure.

Joe Lakin has an Orient steam buckboard which he uses in his work and for pleasure trips.

There are several more machines of various types throughout Rush county, owned by farmers and residents of neighboring towns. These are also seen in the city at various times.

PRESBYTERY

Local Congregation First in Number of Members and Amounts of Contributions

W. P. McGarey and C. M. Lawrence Chosen Delegates to the General Assembly.

The conference, last night, at the U. P. church on "The Church—Her Worship and Her Work," was opened by an address by Rev. Charles M. Lawrence, of Indianapolis, on "The True Church and Her Mission." The address was a masterpiece and held the closest attention of the fine audience present.

Other short forceful addresses on various phases of church work were given by Revs. Jamison, Schmunk, Cooke and Cowan. The statistics at the business session brought out the fact that the Rushville congregation stands first in the Presbytery again as to number of members and amount of contributions. The amount raised by the local congregation for all purposes since last March is \$3882. About \$975 of this amount went to mission work.

Glenwood reported having raised \$1000 for a new church, and asked Presbytery for recommendation to the board of church extension for \$500. Granted.

Rev. W. P. McGarey, of this city and Rev. C. M. Lawrence, of Indianapolis, were chosen as the delegates from the Presbytery to the next General Assembly, to be held in Pennsylvania, next May. All the visiting ministers and delegates have left for their homes.

RUSSIA'S DESIGN

Is to Draw the Japs on and Provoke an Attack on the Yalu.

Russian General Staff Convinced That Kuropatkin Will Await The Japanese Initiative.

St. Petersburg, April 6.—The Russian general staff is convinced that the Russians will await a Japanese attack on the right bank of the Yalu. They are now busily engaged fortifying the mouth of the river. The Russians are seeking to draw the Japanese on by sending small troops across the river.

St. Petersburg, April 6.—A correspondent who has just returned to the fortress from an inspection trip through southern Manchuria, telegraphs that that country is strikingly full of an unusual and active life, that the troops are vigorous and healthy and animated by a desire for active operations, and that the entire native

A FORTIFIED WATCHTOWER IN MANCHURIA. population, including that of the commercial world, is friendly to Russia and full of faith in the Russian arms. The correspondent says:

"Russian money, which was shaky at the beginning of the war, is again firm. The Chinese volunteer militia formed there present a good appearance, wearing a special uniform with epaulettes bearing the Russian national flag. The natives provide provisions freely and are selling horses brought from the surrounding country. The mandarins are an exception to this general rule, as they are cautious and are trying to carry water on both shoulders. As their conduct is passive, it does the Russians no harm. "The railroad holds out splendidly and works regularly, all the attaches of the road being imbued with the high importance of their task. Sentries are posted at the boundary and are doing duty in the neutral zone, dividing China and Manchuria. The weather is warm and the rivers are open. In Port Arthur all is quiet and the inhabitants have become accustomed to a state of war, though some of them are impatient that the enemy has been for a long time invisible."

IN CLAY COUNTY

Feud-Ridden District Has Two More Tragedies.

Jackson, Ky., April 6.—Bummer Spicer, confessed slayer of James Johnson, was arrested by Deputy Sheriffs Hiram Centers and Sam Deaton at the home of Sam Callahan, brother of Sheriff Ed Callahan. Johnson was killed last Friday and Spicer had been in hiding since that time. Johnson was a nephew of J. B. Marcum, who was assassinated last May. Spicer is a member of a prominent mountain family and is distantly related to Congressman South Trimble. Judge James Hargis is conducting the examining trial today.

The charred body of Sam Jones, son of John Jones, who was special elisor for Breathitt county, and who summoned the first jury in the Jett-White murder case, was found near here yesterday under a creek cliff. The body was in a pile of embers still burning, and gashes on the side of his head led to the suspicion of foul play. It is known that he was in company with Thomas B. Combs and Bill Combs Monday night and they were all drinking. The Combs boys say that they lay down to sleep under the cliff after building a fire and that they left Jones during the night. Bill Combs had an ugly cut which resembles a knife wound, on his thigh.

SIGNIFICANT VOTE

Chicago Very Plainly Indorses Municipal Ownership.

Chicago, April 6.—In the municipal election yesterday the Republicans elected eighteen aldermen, the Democrats sixteen, and one Independent Republican, who repudiated the "machine" in the Sixth ward, was chosen a member of the council. The last council was composed of thirty-six Republicans, thirty-two Democrats, one Independent Democrat and one Socialist. The next council will be formed of thirty-six Republicans, thirty-one Democrats, two Independents—one of whom is a Democrat and the other a Republican—and one Socialist. The chief interest in the election, however, centered in the vote on proposed municipal ownership of the street railroads. In this connection what is known as the "Muller law," passed by the last state legislature was submitted to the people. The law authorizes cities in Illinois to construct, own, operate and lease street railroads, and to provide the means therefor. On this proposition the vote stood 152,435 for the proposition and 30,104 against; on the proposition that the city should at once take over the street railroads into its control, the vote stood 120,744 for and 50,893 against; for the temporary licensing of street railroads until such time as the city is prepared to take them over, the vote was 120,181 for and 48,056 against. On the question on whether or not the members of the board of education should be elected by direct vote of the people instead of by executive appointment and confirmation by the city council, as is the present usage, the vote was 115,553 for and 58,432 against.

All the "ring" talk by the Jacksonian in the face of transpiring events in their own party is a huge joke.

U. S. Jackson, who has heretofore been an ardent supporter of Bryan and his friends, has deserted him and got on the Taggart wagon, and with his friend at Greensburg is now slated for a delegate to the National convention. Only one-fourth of the Democratic voters are for Parker, but the whole "ring" is for him, so that he will get Indiana's vote.

The Greensburg Review says that Col. W. V. Millikin, traveling representative of W. R. Hearst's Chicago American, was in that city yesterday, ostensibly to look after the interests of his chief's newspaper, but the knowing ones say that in reality his mission is to get the lay of the land here, and an idea of the sentiment concerning Mr. Hearst's presidential aspirations. The Hearst boomers are very active in Indiana just now, and from all accounts they have succeeded in rounding up a large number of Democratic newspapers to the support of the great yellow journalist. Among those who are openly for Hearst are the following: Albion Democrat, Bloomfield Democrat, Brazil Orthodox, Butler Herald, Cayuga Blue Pencil, Charleston Citizen, Cloverdale Graphic, Evansville Courier, Fowler Review, Franklin People's Paper, Kendallville News, Kokomo Dispatch, Lafayette Home Journal, Lagrange Democrat, Linton Call, Jasonville Journal, Bedford Democrat, New Albany Public Press, Peru Chronicle, Portland Sun, Princeton Democrat, Rochester Sentinel, Rockville Tribune, Seymour Democratic Sun, Shelbyville Liberal, Sullivan Times-Democrat, Tell City News, Vernon Journal, Wabash Times-Star, Winamac Democrat, Journal, Winslow Dispatch and the Waterloo Dawn.

Among the well known Democrats who are booming Willie are Judge McCabe of Williamsport; W. R. Myers, of Anderson; John H. O'Neal, of Washington, Senator Heller, of Columbia City; Senator Ulrey, of Ft. Wayne, Representative Jackson Boyd, of Greencastle; Adam Heimberger, of New Albany; James A. Truesdale, of Alexandria; Joseph Cheadle, of Frankfort; Sidney R. Moon, Port-

land; M. F. Holman, Ripley county; Henry Colerick, Ft. Wayne, and Levi Mock, of Bluffton.

So far Decatur county has not received much attention from Mr. Hearst's managers, but it is safe to say that before Mr. Millikin shakes the dust of Greensburg from his patent leathers he will have things coming his way, and we expect to hear the faithful talking Hearst from this on.

THE TUG OF WAR

Republican Gubernatorial Contest Going on at Close Range.

Indianapolis, April 6.—The real tug of war for the positions on the Republican state ticket will take place during the next twenty days. That is all the time the candidates have left in which to complete their canvass. It was learned today that J. Frank Hanly will come here next Monday to remain until after the convention. He will open headquarters at the Hotel English and complete his campaign from there. Judge Penfield has already opened headquarters here and is as busy as the proverbial bee. Warren Sayre was here today. He is still circuit riding the state, but it is understood that he will have headquarters here within a few days. He has a busy bureau at Wabash now. W. L. Taylor, as a matter of course, has had headquarters here for a long time, as this is his home. With all of the candidates for governor directing their fire from here, there will be enough excitement to satisfy all of the politicians.

It is evident from the talk of the party leaders that the race for the Republican nomination for governor is rapidly drawing to a close, for there are now the usual wind-up stories of combinations. Most of these are to the effect that the field is to be combined against Hanly. It seems to be generally conceded that he is the leading candidate, and the impression has gone abroad that the others will attempt to pool their forces and accomplish his downfall. Sayre and Taylor, according to one rumor, have already agreed that in case neither has sufficient votes to win, that the one having the smallest number is to step aside in the other's favor. If they could throw their delegations together it is conceded that they would present a formidable front and might cause a stampede, but it is not generally believed that a combination will be possible between any of the candidates, for the simple reason that neither will have his district in his vest pocket so that he can dispose of it as he pleases. Although Judge Penfield did not come into the race until a late date, it is said that he has his district in better shape than either of his opponents.

The probability of Senator Albert J. Beveridge being selected as temporary chairman of the Republican national convention at Chicago has filled his friends in Indiana with pleasure. It is generally conceded in his own state that no better man could be selected for such a high honor, as he is eminently qualified both in oratory and as a presiding officer. The keynote speech he made at the convention two years ago here was one of the best ever made at a state convention, and he also showed much ability as a presiding officer during the most turbulent scenes. The only man mentioned besides him for the honor is Congressman Cousins of Iowa, who like Senator Beveridge, is a fine orator, but Indiana Republicans are very hopeful that their favorite will be selected.

Here are a few figures that are interesting in connection with the race for the Republican nomination for governor. Hanly's district has 132 votes, Taylor's 124, Sayre's 121 and Penfield's 98, a total of 475 that may easily be located on the first ballot. The total number of delegates is 1,488; necessary to choice, 745. After the complimentary vote is cast there will be 1,013 votes, out of which a nomination may be made on the first ballot. In order for either candidate to win on the first ballot he would have to get nearly two-thirds of the entire vote of the counties outside the districts where there are no candidates. Politicians have figured on the possibility of Hanly winning on the first roll-call, but it is not believed that anyone will have sufficient following for that.

Witnesses in Smoot Case.

Washington, April 6.—The following witnesses have been summoned to appear before the committee on privileges and elections in the Smoot case April 20: Angus M. Cannon, Salt Lake; George Teasdale, Neophi; J. W. Taylor, Salt Lake; John Henry Smith, Salt Lake; J. M. Tainor, Salt Lake; L. E. Alcott, Farmington; B. H. Roberts, Salt Lake; Moses Thatcher, Logan; Heber J. Grant, Salt Lake; Matthias F. Cowle, Salt Lake; Lillian Hamlin, Salt Lake.

Bank Failure Made Him Crazy.

Waterloo, Ind., April 6.—Thomas Pfeiffer, a wealthy farmer of Steuben county, has gone insane from worry over losing \$500 in the Kinney bank failure at Angola. He became violent and walked the streets with \$3,000 in his hands, and with two revolvers declared that he was looking for the president of the bank, whom he wanted to kill. Pfeiffer was committed to jail, where he tore a stove to pieces. He was taken to Longcliff.

VIGOROUS DEFENCE

Mr. Grosvenor Answers Charges Brought Against Administration.

SOME TART SPEECHES

Mr. Dearmond Attacks Republicans and Ohio Congressman Takes Up Cudgels.

Senator Morgan Indicates That He Is Not Through With Panama Question.

Washington, April 6.—The proceedings in the house were enlivened by speeches by Mr. Dearmond and Mr. Grosvenor, the former attacking the Republicans for failure to order an investigation into the postoffice charges and to revive the tariff, and the latter vigorously defending the Republican party and lauding President Roosevelt for the part he played in the postal investigation, the passage of the Cuban reciprocity law and the treaty with Panama for the construction of an isthmian canal. Mr. Grosvenor frequently was interrupted and was applauded by the Republican when he answered the gibes of several Democratic members on the subject of the tariff and the postal investigation. Earlier in the day Mr. Prince (Ill.) in a vigorous speech, predicted friction between the general staff of the army and the secretary of war.

The senate listened to a two-hour speech by Mr. Morgan on the Panama canal question, and then again took up the postoffice appropriation bill, but adjourned without completing its consideration. Some important amendments aside from those suggested by the committee were agreed to, among them one increasing from two to four ounces the size of franked letters, and another adding twenty-five members to the force of rural free delivery agents. Mr. Morgan's speech was in special advocacy of his resolution requesting information from the attorney general concerning concessions to the original Panama Canal company, and was in the main an arraignment of the new Panama company.

His Weight Didn't Help Him.

Philadelphia, April 6.—Herr Placke, the champion of Holland, made a sorry spectacle of himself last night in a fight with Kid McCoy at the Lenox club. Standing six inches taller and weighing over seventy pounds more than his pale-faced opponent, he was beaten almost insensible in less than four minutes. Placke never laid a glove on McCoy except when the men clinched. Before the first round ended Placke was covered with blood from his neck to his waist and both eyes were almost closed. Just before the gong sounded announcing the close of the first round McCoy drove a vicious left flush to the chin, dropping Placke like a log. The gong saved him from being knocked out. He was carried to his corner only to be knocked out ten seconds after the opening of hostilities in the second round.

Three Children Drowned.

Tustin, Mich., April 6.—The three children of Mr. and Mrs. Robt. Holmes, Laura, aged thirteen; Hazel, aged eleven, and Wendell, aged nine years, were drowned in a large pond less than forty rods back of their home yesterday. The pond was covered with a thin coat of ice on which the children ventured. They sank together in thirteen feet of water. When the bodies were recovered two hours later, the children's hands were still tightly clasped.

Treasurer Pleaded Guilty.

Winsted, Conn., April 6.—Burton Matoon, formerly state senator and ex-treasurer of the Watertown Savings bank, pleaded guilty in the superior court to four charges of making false entries in the books of the savings bank. He will be sentenced next Tuesday. Matoon also is treasurer of Watertown, and an investigation committee has reported a shortage of \$23,000.

Fatal Hunting Accident.

Wingate, Ind., April 6.—Word has been received here that Everett Crane, who was hunting at Demotte, Ind., on the Kankakee river, had been accidentally shot and killed. He was about nineteen years of age. His father, John R. Crane, is a farmer and stock buyer. He left for the scene of the accident, and the body will be brought home for burial.

Wade Brothers' Sentence Confirmed.

Columbus, Ohio, April 6.—The supreme court has affirmed the verdicts of the Lucas county court in the cases of Albert and Ben Wade, brothers, who are under sentence of death for the murder of Kate Sullivan at Toledo several years ago. Both men had been granted a stay of sentence and the supreme court will fix the dates for their electrocution.

Result of an Old Grudge.

Hopkinsville, Ky., April 6.—Louis Wilbert, aged eighteen, shot and killed Gus McIntosh at Mannington. An old grudge is said to have caused the murder. McIntosh was armed, but did not draw his revolver. Wilbert escaped.

A MYSTERIOUS VALENTINE

An Original Story in Three Parts, Written by Mrs. Kate Churchill-Allen, Mrs. Dr. Wooden and Miss Dove Meredith Respectively, and Read before the Monday Circle Feb. 14th.

Continued

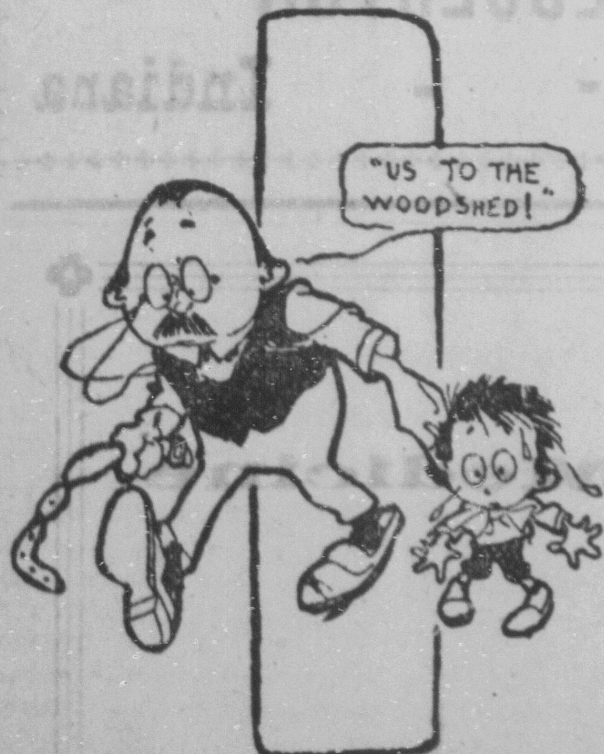

Remonstrance has been useless so Jeanette has been allowed to watch over her little love. Silently, Paul joins the vigil and so the hours pass. Paul, with all a lover's keenness notices the great change that, when the crisis is over and Earnest's recovery possible, is more and more apparent.

In her self-sacrifice he realizes the depth and nobility of character that has developed in her, and he is filled with humiliation that he should ever have sat in judgment on one who with an angelic touch woe back to convalescence her little lad. She who is never weary in well doing, whose life is full of kind words and deeds. Earnest is much better, but still his uncle Paul lingers. The West with its business responsibilities seems "a thing apart." Such are Cupid's capers! Paul lingers to be near his little nephew (but he looks at his nephew's aunt, who, if she notices, gives no sign). His surrender is complete. The last week of his stay has come. The little invalid who is somewhat of an autocrat these days, in his convalescent state, has been allowed to see his friends. It is evening, and Paul sitting with a book in his hands, whose every page has "Jeanette," "Jeanette" printed all over it, so far as his thoughts are concerned, hears Earnest's cry of "Oh, you dear Mr. Pessimist. Come in, and looking in astonishment he sees a rough, but kind face beaming on the boy. The hands that clasp the tiny, thin ones are horny but they are clean and the voice tho' husky is full of tenderness and love. Jeanette, coming in sees the wonderment in Paul's face so she tells him the story of Earnest and his protegee. Just as I have told it to you. When she comes to that part where she writes the message on the valentine for her nephew, she is suffused with flushes, suddenly, and a light suddenly dawns on Paul and his heart fills with joy. "Jeanette," on the eagerness, the hope and the adoration in his voice. "Jeanette, did you send the mysterious valentine that I got?" And poor girl, cornered at last has no defense but the weak one that it was "from Earnest." But the uncle of that youth insists on his rights and— But there, it isn't polite to "pique" when Cupid is rectifying his mistakes. Earnest and the Pessimist are too busy talking to see, so why should we?

I didn't look. All I know is that when Paul goes back West, Jeanette goes with him and the little nephew too, for a long visit. Later Mr. Pessimist is to come where Paul has promotion for him and "All's well that ends well."

STATE NEWS

Indianapolis, April 6.—The Indiana State Prohibition convention was opened by State Chairman Charles E. Newlin. Chairman Newlin turned the gavel over to J. C. Rhodes of Kokomo, who delivered a speech in which he condemned many things, including the Nicholson law, which he declared had increased the number of licensed saloons in Indiana 1,600 since its passage. With the 1,085 delegates in the state, an equal number of alternates and the prohibitionists attracted to the meeting, the city is full of them. Mr. Rhodes made the campaign slogan address and closed with a boom for General Miles for president.

THE FINAL MEETING

Indiana Miners' Scale Contract Now Being Fixed Up.

Terre Haute, Ind., April 6.—A sub-committee of five miners and five operators instead of the full joint committee of ten each, met to get the scale contract in shape. As a rule the miners in the state are at work. In some instances the operators are willing they should be idle. The demand for coal is slack, and there is repair work to be done.

At one time near Washington, the men refused to work pending the signing of the scale, and the operators telegraphed here. The statement was made that the Indianapolis agreement provided that the men should continue at work, but miners say that all that was agreed to was that the men be advised to continue at work as they could not be required by the organization to continue at work with no contract. It is said by the miners' officials that the men are making a mistake by refusing to work, as it will be only a day or two before a contract is signed. On the other hand the operators are unfair, it is said, in giving the public the impression that the men are violating the Indianapolis agreement, putting them in the attitude of being unfit to contract with.

The question was brought up in the secret meeting of the committee and things of a sharp nature were said.

Grain Man's Narrow Escape.

Hillsburg, Ind., April 6.—J. B. Snodgrass, owner of the grain elevator in this place, while repairing machinery at the top of the "chute," fell into the "dump" and was carried down by the ear corn pouring from the big bins. He realized his danger and managed to toss his hat to the floor before he was buried underneath the mass. Employees discovered the hat and, surmising what had happened, dug him out before life was extinct. He was covered by a great mass of corn, but escaped suffocation.

Big Teachers' Meeting.

Warsaw, Ind., April 6.—It is expected that almost 3,500 teachers will be here on Thursday, Friday and Saturday of this week to attend the 22nd annual meeting of the Northern Indiana Teachers' association, to be held in this city and at Winona Lake. The meetings will open on Thursday afternoon in the Auditorium at Winona Lake, and the closing meeting will be on Saturday morning, when the officers will be elected.

Change of Venue Taken.

Lafayette, Ind., April 6.—John F. Judy, who was tried here in February for grand larceny, but who was not convicted owing to a disagreement of the jury, will not be tried again in this county. He has filed affidavits for a change of venue, alleging that there is so much bias and prejudice against him here that he cannot receive a fair trial.

Flood Victim Still Missing.

Logansport, Ind., April 6.—Searching parties are endeavoring to locate the body of Sol D. Brandt, the owner of several summer resorts, who was drowned Saturday. No trace of the body has been found. The city council yesterday appropriated \$100 as a reward for the discovery of the remains.

Gas Victim Wants Damages.

Proposed International Congress.

Washington, April 6.—An estimate of \$6,000 was transmitted to the house from Secretary Hay to pay the expenses of the participation of the United States in the international congress to consider collisions at sea and salvage. The invitation has been extended to Belgium.

Victim of Accidental Shooting.

Washington, Ind., April 6.—Mabel Howard, the seventeen-year-old girl who was accidentally shot by John Fougereousse, is dead. Miss Howard was soon to have been married to Peter Fougereousse, with whose revolver she was shot.

Unionists Oppose Japs.

Everett, Wash., April 6.—A plot to dynamite the quarters of the Japanese employed by the Mukleto mill was discovered and frustrated. For some time past the feeling against the Japanese has been very bitter, organized labor opposing very strongly. Attempts were made to drive the Japanese away from this locality, and it is believed that the dynamite was a part of the plot.

Apprehension Among Jews.

Vienna, April 6.—Considerable uneasiness exists among the Jewish element of Lom-Palanka, Bulgaria, owing to the murder of a young Macedonian, although a medical commission has certified that it was not a ritual murder. Local agitators have been endeavoring to incite the population of the town against the Jews.
